Professor Ten Feizi honoured by The Royal Society of Chemistry

Description

Professor Ten Feizi FMedSci has been awarded the 2020 Haworth Memorial Lectureship from the RSC Carbohydrate Group. The award is given in recognition of Professor Feiziâ??s outstanding contributions to the development of glycan array technologies for the characterization of glycan ligands of carbohydrate-binding proteins. The award was founded in 1969 in commemoration of Sir Norman Haworth and it is awarded for sustained, internationally recognized contributions to carbohydrate chemistry.

Professor Feizi is a passionate advocate of the Glycosciences in the wider biomedical research community. She has collaborated with innumerable researchers across disciplines and has mentored countless scientists many have become successful academic.
