

Starch Structure, Functionality and Application in Foods

Description

- History of Starch Research. *Les Copeland*
- Botanical Sources of Starch *Shujun Wang, Peng Guo*
- Fine Structure of Amylose and Amylopectin *Xiangli Kong*
- Multiscale Structures of Starch Granules *Shujun Wang, Hanbin Xu, Huiyu Luan*
- Amylose–Lipid Complex *Qiang Huang, Xu Chen, Shaokang Wang, Jianzhong Zhu*
- Phase Transitions of Starch and Molecular Mechanisms *Shujun Wang, Chen Chao, Shiqing Huang, Jinglin Yu*
- Rheological, Pasting, and Textural Properties of Starch *Shujun Wang, Fei Ren*
- Starch Modification and Application *Shujun Wang, Jinwei Wang, Yi Liu, Xia Liu*

- In Vitro Starch Digestion: Mechanisms and Kinetic Models *Bin Zhang, Haiteng Li, Shaokang Wang, Shahid Ahmed Junejo, Xingxun Liu, Qiang Huang*
- Digestibility of Starches for Human Health. *Les Copeland*
